ABOUT US

YOUR SOURCING PARTNER IN CHINA

HY Voyagers is a Canada-based China sourcing agency connecting Canadian businesses and international buyers with verified manufacturers across China. Founded by **Shensi**, who travels directly to the Chinese trade fairs, wholesale markets, and factories to source on behalf of clients, so you don't have to.

VERIFIED SUPPLIERS

Every manufacturer is vetted before products reach your catalogue.

ON-THE-GROUND ACCESS

Direct China Trade Fairs and factory visits, our team sources in person every season.

NO LOST IN TRANSLATION

Bilingual communication bridges the gap between you and your supplier.

END-TO-END SERVICE

From product selection to shipping, full sourcing support.

The products in this catalogue represent a curated selection of verified supplier ranges sourced directly from Chinese manufacturers. All items are available for custom order, private label, and bulk purchasing. This catalogue does not represent the full extent of what we can source; we work across a wide range of categories, suppliers, and product varieties beyond what is shown here. If you are looking for something specific, want to explore more options within a category, or need us to find a product entirely, get in touch, and we will handle it.
